

# Ligature Risks in a Behavioral Health Room

1	Large grill opening for overhead light
2	Fire sprinkler
3	Picture frame
4	Cord for blinds (non-recessed window framing / blind hardware)
5	Exposed plumbing / sink fixture itself
6	Towel bar / grab bar / also a risk if hook
7	Phone (especially if corded)
8	Bed post (only 18" needed for ligature point)
9	Trash can (could also be used as stepping point)
10	Heating grill
