

PA-PSRS Supplemental Data Form

Neonatal Complications

PA-PSRS Report Number:

1. Primary cause of the event as identified during the investigation (or causal statement)

2. Other contributing factors identified during the investigation

3. Actions taken or planned in response to the investigation

4. Description of investigation method(s) used

5. Additional details not already included in PA-PSRS report that were discovered during the investigation and not already included in the PA-PSRS report

DRAFT

PA-PSRS Supplemental Data Form

Neonatal Complications

PA-PSRS Report Number:

6. Gestation (weeks and days) at time of delivery
7. Neonate weight at birth
8. APGAR scores at 1 and 5 minutes (and additional scores, if applicable)
9. Labor and delivery details (mode, fetal position, induction of labor, spontaneous labor, scheduled c-section, use of vacuum or forceps)
10. Mother's age
11. Gravidity and Parity (GTPAL – gravidity, term births, preterm births, abortions/miscarriages, living children)
12. Mother's mode(s) of pain relief, if any
13. Maternal and/or neonatal factors leading to the reportable event (e.g., known pregnancy complications, nuchal cord, placental abruption, congenital abnormalities)
14. Was this a trial of labor after cesarean (TOLAC) or vaginal birth after cesarean (VBAC)?
15. Previous complicated pregnancies or deliveries (maternal information)
